

SCREENING FORM WHEN SCHEDULING CLIENTS – COVID-19

In an effort to maintain a safe and healthy environment for our clients and therapists we have developed the following questionnaire to determine whether you can be safely treated and scheduled in this office at this time. Due to how highly contagious COVID-19 is and that some people have minor or no symptoms it is necessary to do a risk assessment to protect you, our therapists, and all the clients who are coming for treatments. There will also be another risk assessment when you arrive at the office.

We will ask to take your temperature. This will be a requirement for you to receive a session. If you have a fever, we will reschedule your appointment. If it is within normal range, we will continue with the screening to make sure it is appropriate to continue with your treatment.
